

NO LABOR POLICY SHIFT ON THE LENGTH OF STAY OF MIGRANT WORKERS IN FRANCE

The Philippine Embassy in Paris reported that the Ministry of Labor of France had clarified that there were no amendments in its labor policy on the length of stay migrant workers can work in France. This clarification was issued by the French Ministry of Labor following published newspaper reports that France had revised its labor law on the length of stay from six to two years of overseas Filipino workers.

The period of employment of migrant workers in France is based primarily on the period of the visa issued in favor of the worker and on his agreement with the employer.
